scansource

Fact Sheet
February 2013

CORPORATE PROFILE

ScanSource, Inc. (NASDAQ: SCSC) is the leading international distributor of specialty technology products, operating from dedicated business units in North America, Latin America and Europe. ScanSource serves as a value-added distributor for approximately 250 technology manufacturers and sells to approximately 30,000 technology resellers in the following product areas:

- Point-of-Sale (POS) and Barcode
- Communications (voice, video and data)
- Physical Security (video surveillance, access control, and wireless infrastructure)

With fiscal year 2012 net sales of $3 billion, ScanSource has approximately 1,500 employees worldwide and is a Fortune 1000 company.

THE SCANSOURCE DIFFERENCE

Dedicated Business Units

- Led by their own presidents with dedicated sales, merchandising and technical support teams
- Foster a deep knowledge-base and a partner relationship focus
- Create scale and efficiency on services shared among business units

Commitment to the Channel

- Sell only to resellers – never to end users
- Growth opportunities from channel shift (both direct to indirect and one-tier to two-tier), channel consolidation, new vendors and market share gains

Value-Added Services

- Help resellers to strengthen and grow their businesses through value-added services, such as inventory management, financial services, marketing, technical support and superior customer service
- Reinvest in value-added services – our competitive advantage – to meet vendors' and customers' needs

Centralized Distribution Model

- Centralized inventory management for major geographic regions
- Ability to ship orders from inventory on the same day
